LinkedIn: www.linkedin.com/in/greatman-pydev | **GitHub:** www.github.com/King-Greatman-Spirit

PROFESSIONAL SUMMARY

Innovative Software Engineer with expertise in Python, PHP, Node.js, and full-stack development. Skilled in Django, Flask, React, PostgreSQL, and MySQL, delivering scalable, production-grade applications for industrial, security, oil & gas, and corporate sectors.

TECHNICAL SKILLS

- ❖ **Languages & Frameworks:** Python, PHP, Node.js, JavaScript & TypeScript, Django, Flask, React
- ❖ **Databases & Cloud:** PostgreSQL, MySQL, SQLite, Firebase
- ❖ **Web & DevOps:** HTML, CSS, Bootstrap, AJAX, Axios, Git, Docker, Nginx, REST APIs
- ❖ **Testing & Quality:** Unit/Integration Testing, Performance Optimization

PROFESSIONAL EXPERIENCE

B.G. Technical Limited — Software Engineer *(September 2024 – Present)*

- ❖ Built scalable full-stack applications using Python, Django, PHP, Node.js, React, and Bootstrap, improving user satisfaction by ~40%
- ❖ Integrated Google Firebase and real-time services, reducing latency by 20%
- ❖ Optimized operational workflows using AJAX and Axios, increasing efficiency by 30%

FlowCode Tech Hub — Full-Stack Web Developer | Instructor *(May 2024 – Sept 2024)*

- ❖ Delivered hands-on training programs in HTML, CSS, JavaScript, PHP, Python, and MySQL, equipping students with job-ready full-stack skills.
- ❖ Mentored learners through real-world projects, covering application design, development, deployment, and debugging.
- ❖ Managed relational databases and optimized SQL queries, improving database performance by up to 30%.

Webstacka IT Company — Python Developer *(April 2021 – April 2024)*

- ❖ Engineered scalable web applications using Django, focusing on clean architecture and optimized backend performance.
- ❖ Designed and implemented RESTful APIs, integrating PostgreSQL and MySQL databases for robust data handling.
- ❖ Supported scalable deployments using Docker and maintained version control using Git, improving development efficiency and reliability.

ENTERPRISE & CLIENT PROJECTS

- ❖ **Pipeline Pigs and Accessories (PPA) Limited – Industrial & Pipeline Solutions**
URL: <https://www.piggingproducts.com/>
Developed an industrial-grade website emphasizing clarity, performance, and lead generation.
- ❖ **Samben Security – Security Services**
URL: <https://www.sambensecurity.com>
Corporate website emphasizing safety, and operational excellence.
- ❖ **King GREATMAN SPIRIT (KGS) – Personal Portfolio Platform**
URL: <https://www.kinggreatmanspirit.com>
A fully dynamic, Django-powered portfolio platform serving as a digital identity hub.
- ❖ **B.G. Technical Limited – Oil & Gas Engineering Services**
URL: <https://www.spiritual.pythonanywhere.com>
Designed and deployed a corporate website to enhance brand credibility and visibility.
- ❖ **Savvy Chemicals Ltd – Industrial & Specialty Chemicals**
URL: <https://www.savvychemicalsltd.com>
Built a full-stack corporate website with secure admin dashboard and product management.

EDUCATION

- ❖ B.Sc. Computer Science (In View), 2024 – Present — University of the People, Pasadena, California
- ❖ National Diploma (ND) in Computer Science, 2017 – 2020 — Captain Elechi Amadi Polytechnic, Port Harcourt, Nigeria

CERTIFICATIONS

- ❖ Python Django Web Development — Django Masters
- ❖ Masterclass Backend Web Development with PHP — AQskill
- ❖ Python Programming — Techgyan
- ❖ Agile Project Management — HP LIFE
- ❖ Cloud Computing Foundations — HP LIFE
- ❖ Effective Leadership — HP LIFE

LANGUAGES

- ❖ English — Fluent
- ❖ French — Basic (Currently Learning)
